# SUNSET TOWN

THE LAND OF ART, LOVE & FESTIVALS

**SUNSET  
TOWN**  
THỊ TRẦN HOÀNG HÔN

An aerial view of a vibrant, stylized town at sunset. The town features a mix of architectural styles, including a prominent church with a tall, illuminated steeple. The town is surrounded by a large body of water filled with numerous small boats. The sky is a mix of orange, pink, and purple, reflecting on the water. The town's streets are illuminated, and the buildings have a warm, glowing appearance.

## THE TOWN OF ICONIC ARCHITECTURAL LANDMARKS

"I think the design of Sunset Town is of extraordinary beauty",  
Graham Cooke, President and Founder of World Travel Awards.

Visitors to Sunset Town can immerse in a romantic haven full of emotions, perfect for creating beautiful memories of love and connection. In this locale, every architectural line, street corner and building is a unique work of art with intriguing tales.

## A PERFECT SPOT TO SEE THE MESMERISING SUNSET

When visiting **Sunset Town**, make sure you don't miss the breathtaking sunset, a renowned specialty of Phu Quoc Island and an experience that truly captivates.

The brilliant afternoon paints the sun in magnificent hues of pink, orange, and purple. In the couple's eyes and kisses, one can sense the emotions amidst nature's romantic scenery. Sunset Town has become a captivating sunset spot, comparable to Key West in the USA and Ipanema in Brazil, two world-famous beaches with daily sunset festivals.

## THE GIANT "ART MUSEUM"

Sunset Town is akin to a massive art museum boasting the ancient **La Festa Clock Tower** at its heart, the **King of the Sun Fountain**, crafted by the renowned Italian sculptors of the Frilli Family, the **Sun Signature Gallery** convention centre, designed by the architectural wizard Bill Bensley, the unique 3-domed **Infinity Stage**, and, most notably, the **Kiss Bridge**, destined to become the next global tourist icon.

## KISS BRIDGE BORDERLESS TOUCH

A testament to international collaboration, Kiss Bridge stands as a fusion of Marco Casamonti's Italian architectural vision and the remarkable construction skills of the Vietnamese people.

**Kiss Bridge** has two branches, each spanning 400 meters long, reaching towards each other halfway across the sea with a gap of 30cm. This unique architectural design draws inspiration from Michelangelo's masterpiece, "The Creation of Adam," to symbolise and celebrate connection, love, and friendship. Only through the human bond can the two branches join, transforming Kiss Bridge into an actual bridge.
